

**7.4.1 Efficiency Standards for Commercial Warm Air Furnaces**

**Effective for products manufactured on or after January 1, 1994**

	<u>Thermal Efficiency (1)</u>
Gas-fired, with capacity $\geq$ 225,000 Btu/hr	Not less than 80%
Oil-fired, with capacity $\geq$ 225,000 Btu/hr	Not less than 81%

Note(s): 1) Measured at the maximum rated capacity.
